# Mack ElectriFi

Finance Solutions

More than just trucks, when you buy a Mack® Electric Vehicle, you plug into a coast-to-coast network of service, support and over 120 years of trucking experience.

**MACK**®

# Pick how you plug in.

Whether you're fully committed to building your electric fleet infrastructure or looking to see what a single Mack EV can do for you, we offer multiple financing or leasing solutions with expanded bundles available to help you add an electric vehicle to your fleet.

## ElectriFi Subscription<sup>1,2</sup>

The easiest way to start rolling clean with a Mack electric vehicle. ElectriFi Subscription allows you to pay as you go, with related vehicle, insurance and maintenance costs combined into a single payment.

### Includes:

Pay for miles driven, with no minimal mile commitment.

Reduce your capital investment risk with no upfront residuals and easy walk-away option at the end-of-term.

Improve your cashflow by aligning your costs with revenue based on your operational usage.

Minimize administration time related to your fleet operations.

Simplify your billing with one simple contract for chassis, body, insurance, maintenance and more.

Choose your level of commitment with flexible terms starting at 3 years<sup>4</sup> with the option to extend.

## ElectriFi Infrastructure<sup>3</sup>

Mack takes the guesswork out of infrastructure upgrades with our turnkey electric Infrastructure solution. Available for all vehicle purchases or leases, ElectriFi Infrastructure allows you to choose your level of commitment and involvement in your infrastructure upgrades.

### Includes:

Mack takes care of all charging station design, installation, hardware, software and construction so you can focus on your business.

Ease your mind knowing that everything you need to charge your fleet is included.

Simplify your operations with Mack's energy optimization and Low-Carbon Fuel Standard management tools.

All-inclusive financing available, including up to a 60-month loan.

## ElectriFi Lease

Add eMobility to your fleet without any major capital investments or long-term commitments. ElectriFi Lease allows you to put aside concerns about changing technology and harness the power of Mack's experienced team, tools and technicians in a single monthly payment.

### Includes:

Tap into the power of telematics with Mack's suite of connectivity, analytics and uptime tools included in the Mack Ultra Service Contract.

Simplify your billing, payment and data analytics with complete integration.

Include taxes and licensing costs with your single monthly payment for easier cost calculations.

Choose your level of commitment with full lifecycle financing options and renewable 5-year terms.

Ease into eMobility with no upfront residuals including the end-of-term option to buy, renew or walk away.

Our Route Support Services team meets with your business to analyze existing routes, identify infrastructure upgrades and ensure your emobility integration is simple and seamless.
