

New GR/Granite Improvements

New Road speed signal location for devices used in spreader applications. Conventional Cabs for Mack Trucks built starting week 37 2023 to current. Steering Wheel Snow Plow Switches from Allied Mobile Systems.

Also the PTO Pump Speed Calculator has added important part number information relative to GEN 2 part numbers and programming PTO2.

[More information \(PPTX\)](#)

Mack Trucks offers Center Console for PTO Tower that mounts to rear cab panel for dump body controls, tarp switch, and tailgate release. [Other aux switch options available.](#)
