

MACK PREMIUM HYDRAULIC OIL

Mack ISO 32 Premium Hydraulic Oil is a high performance hydraulic fluid for manual transmissions and gears that provides outstanding protection and performance across a wide range of temperatures.

APPLICATION

Suitable for use with most hydraulic pumps and compatible with most other mineral-based hydraulic fluids.

Key Benefits of Mack Hydraulic Oil:

- Outstanding wear protection and performance.
- Helps extend equipment maintenance intervals by resisting thermal and chemical breakdown.
- Excellent filterability and high performance water separation, air release, and anti-foam characteristics.
