

# Remanufactured *mDRIVE*<sup>™</sup> by REMACK<sup>®</sup>

Mack tests all of our Complete transmissions under load. Something you won't see at a competitor's shop? Dyno-Testing.

Dyno-Testing isn't required, but it creates a better product. With Dyno-Testing, every *mDRIVE* Complete Transmission undergoes:

- Testing to Mack's strict specifications
- Testing through all ranges and under load
- Top shift cover functionality performance

You can trust REMACK Parts. Here's why.

REMAK components are fully remanufactured from top to bottom using Mack factory-specified technologies and processes.

The result is a 100% Mack genuine replacement part that's tested and warranted for performance, reliability, and longevity—with the added advantage of substantial cost savings.

## mDRIVE Complete

### Your Best Solution

Standard: 2 Years\* / Unlimited Miles  
Extended: 3 Years / 350K Miles

The *mDRIVE Complete* is your best option.

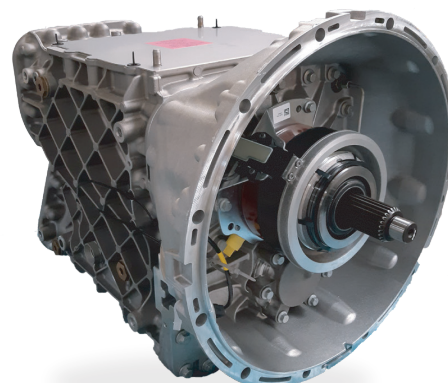

REMACK offers a Good and Best option for remanufactured transmissions. Your authorized Mack Dealer will assess your unit and suggest the best repair option based on the age and type of damage to your truck's transmission.

While all *mDRIVE* units are built using only Mack parts and remanufactured by Mack-certified, factory-trained technicians, the *mDRIVE Complete* is your best solution.

The *mDRIVE Complete* provides:

- Transmissions that are installation ready — your truck can be in and out and back on the road in just one day. Unlike the competition, no additional transmission components or assembly labor hours are needed.
- All of the latest engineering updates are included, regardless of model. You get the latest product improvements today.
- A transmission that's been tested under load and dyno-tested to Mack's stringent factory specifications.
- \*Standard two-year / unlimited-mileage warranty, parts and labor, when installed by an authorized Mack Dealer. **The Extended warranty offers an additional year of warranty on the most popular models covering over 90% of vehicles in operation, offered at no cost to you.** Receive this best-in-class three-year warranty on your Complete AMT with installation of a genuine clutch kit and usage of our genuine transmission fluid.

## mDRIVE Short

### Your Good Solution

1 Year / Unlimited Miles

The *mDRIVE Short* is a good option.

Just like the *mDRIVE Complete*, the *mDRIVE Short* is built using only Mack parts and remanufactured by Mack-certified, factory-trained technicians.

Some assembly is required with the *mDRIVE Short*. Not included is the top shift cover, the transmission's electronic control unit, and auxiliary range section.

The *mDRIVE Short* provides:

- The ability to have your truck in and out for service in one to two days.
- All of the latest engineering updates are included, regardless of model, except for the parts reused.
- One-year / unlimited-mileage warranty on the gear box but not on the parts that are locally installed. Includes parts and labor on gear box when installed by an authorized Mack Dealer.

Finish your *mDRIVE Short* with the following options:

- **Top Cover Options:** REMACK Control Unit (GCU), REMACK Cylinder Housing (MU), REMACK Top Cover (TECU)
- **Range Kit Options:** Pure Mack Range Section Kit (rebuild range), REMACK Range Section (assembled)
- **Complete the Repair:** REMACK Flywheel Kit with Pilot Bearing, Genuine Clutch Kit, Genuine Transmission Oil - 5 Gal Pail

For part numbers and additional details, please see the REMACK Concise Guide.

## Transmission Range Section

### Your Service Solution

1 Year / Unlimited Miles

Your option in the service category is the *Transmission Range Section*.

REMACK® *mDRIVE* Transmission Range Sections are completely disassembled and cleaned using the latest technology. All critical components and "high wear" items are replaced with new. Machining of remanufactured components undergoes stringent quality control processes using precision machining centers to ensure that performance and reliability standards are met.

The *Range Housing Service Kit* includes:

- High Range Drum
- Spacer Ring
- Snap Rings
- Speed Sensor
- Output Flange
- Oil Filter

## Finish the Job with Mack

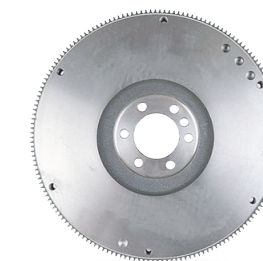

### Use Mack factory-fill recommended fluid

Mack *mDRIVE* Transmission Fluid (75W-80 and 75W-90) is a high-performance transmission oil designed for automated manual transmissions and extending drain intervals.

### REMACK Flywheel (including bearing):

Remanufactured flywheels are available as an alternative to new flywheels and provide a lower *mDRIVE* service cost.

### Genuine Clutch Kit:

Our Genuine Clutch Kits include the pressure plate and clutch disc for a lower price than if purchased separately. They feature a perfect design to avoid excessive wear and high stress, securing durability and uptime. All kits are engineered to function perfectly with our transmissions.
