MACK®

MAXIMIZE UPTIME

By connecting your trucks, your drivers and the work they're doing

OPTIMIZE AND AUTOMATE PERFORMANCE with an integrated software solution built for Mack Trucks

Zero Hardware to Install
Over-the-air activation leverages Mack® GuardDog® Connect vehicle hardware*

- Built-in telematics software
- Provides rich Mack-specific diagnostic data
- No installation downtime
- Capitalization tax benefits
- Warranty options backed by an extensive dealer network
Connect all your enterprise software together
Easily integrate billing, payroll, dispatch, HR, maintenance, CRM, safety, IFTA reporting and more

Essentials for Compliance & Fleet Management

- Get real time views into fleet operations, from vehicle locations to utilization trends
- Automate reporting, such as IFTA mileage reports
- Help reduce downtime with service plans, alerts and reminders when service is due
- Stay in control with tools, reporting, near real-time alerts and easy to use dashboards

## Easily connect additional services to get more from your Mack Trucks:

| Electronic Logs** | Digital Inspection Forms | Truck-Specific Navigation | IFTA Miles by State Reports |

*Available on Mack Trucks equipped with connected vehicle hardware. **Additional Hardware required

MOST NEW MACK TRUCKS SHIP WITH TELEMATICS HARDWARE BUILT-IN. Which means turning on Verizon Connect service to run a safer, more fuel efficient and productive fleet is easier than ever before.

Verizon Connect Fleet

Improve operations, asset utilization and driver safety with applications that scale to organizations of all sizes. Gain near real-time insight into your vehicles, assets, people and the work they're doing all on one dashboard.

→

- Fast mapping with spatial clustering
- Traffic
- Driver behavior scorecards
- Mobile view for supervisors on the move
- Powerful automated reports
- Fleet Intelligence Dashboard
- Weather
- Animated vehicle history
- Real-time alerts
- Speed

Built-In
Fleet Intelligence
with Mack Trucks

As a solution that's built into your Mack truck, you get access to premium, dedicated services that help keep your vehicles on the road and productive.

→

- Fuel used
- Fault status reports
- ABS
- Stability
- Idle fuel
- Traction
- Odometer

Verizon Connect
Compliance & Navigation

Give your drivers additional applications that help with DOT-compliance like Hours of Service and Driver Vehicle Inspection Reports, along with commercial truck navigation that is dynamically updated by the largest community of commercial truck drivers in North America. Help gain significant cost savings by avoiding compliance fines, accidents and delays.

→

- Automated Hours of Service
- Truck-specific commercial navigation
- DOT compliance
- Driver vehicle inspection reports
- Automated driver assignment
- Road network feedback from over 130k drivers
- Tablet or smartphone
- Last mile routing
- Bring your own device
